

Creative Color    Faber Birren    \$24.95    950-1295

Though written with the painter in mind, Mr. Birren provides so much unique information about the use of color in obtaining unusual effects, his book is valuable for the fiber person as well. Most fascinating to me was how to obtain lustrous, iridescent and luminous effects with color. He also covers such things as Chromatic light, Chromatic Mist, Luminosity in Mist, Transparency, Texture, Solidity, Highlights and Shadows, and Three-Dimensional Color. I think that it is a good book.
