

The Surface Designer's Handbook

Holly Brackmann

\$31.95 950-990

You'll want this book for the photographs-color explodes from its pages. But you'll also learn a lot about the weavers, embroiderers, dyers, block printers, and felters and their magnificent robes, rugs, bags, tent decorations, animal trappings, and more. This book features the textile art of the nomads who have traveled the steppes of Central Asia for over two thousand years. The text includes a brief history followed by chapters discussing the development of typical motifs and their significance, materials and dyes, types of textiles, and techniques of production. All the material is beautifully organized and presented. A glossary and index are included.
