

On Loom Cardweaving

Herbi Gray

\$14.95 950-062

Sometimes I'd like to try this gentle but exciting and creative form of cardweaving. A loom, any size, is used to hold the cards, and narrow as well as wide widths may be woven. Within one piece you may do plain weave, leno, log cabin, double weave and double weave pick-ups, conventional cardweaving, cross warp ends, and more. A sampler is designed to teach these techniques. I closed the book feeling as if I've had a pleasant low-keyed journey through a land that offers much excitement and adventure.
