James D. Scarlett

\$25.00 950-302

This book provides the weaver with useful and authentic information about tartan and tartan weaving. More than 140 tartans are illustrated here in full color, and the thread counts and color order are given for 228 different tartans. The samples of cloth used to illustrate this book have been chosen with care to approximate the original vegetable colors used by weavers in the Highlands before chemical dyes were introduced.
