

The Complete Book of Drafting Madelyn van der Hoogt

\$36.00 950-245

This is a book on drafting that is also a handbook of weaves. You'll not only learn to use drafting tools -- warp and weft drawdowns, warp and weft cross sections, and block profile drafts -- you'll also learn to design with pattern weaves. Under one cover find the steps for drafting and weaving any profile design in any unit weave as well as extras like color-and-weave, blended drafts, turned drafts, network drafting, and fabric analysis. Beginner and advanced weavers will refer to it as a constant resource, from the first to the last day you weave! This is destined to become a classic with its clear and concise explanations and excellent diagrams and illustrations! Black & white photographs and diagrams.
