Peggy Osterkamp

\$40.75 950-328

Here's a book that answers a beginner's every question about warping and at the same time acts as a timeless resource for experienced weavers. Osterkamp teaches the European method of working from back to front to put on a warp that is smoothly beamed and perfectly tensioned. She explains the "why" of warping and sells you on her techniques. Sidebars show handy tips and tools to make the job of warping easier and more fun — freeing the weaver for weaving. She takes special care to adapt all methods to each type of loom. The profuse diagrams are clear and easy to follow.
