

Design & Knit the sweater of your Dreams J.Marsha Michler \$34.50 950-651

I would say this book is for those experienced knitters who are tired of knitting other people's patterns, and desire to break out and create an original. Michler does a fine job explaining how to graph out my own stitch/color patterns as well as the mechanics of designing a garment that will fit. There is a useful worksheet for determining the size of the garment and the number of stitches needed. Design options like necklines and sleeves variations are covered too. This book contains a few projects that require a knitting machine; however most are hand knitted.
