

Big Book of Knitting   Katharina Buss   \$43.50   950-515

You know what I like most about this book? It has the clearest photos and presentation of every aspect of fine knitting I have ever seen. Some of the Japanese produced books have had good illustrations of the details, but for some reason the use of hundreds of photos and the clarity of the samples and techniques being illustrated lift this knitting textbook above the rest. The thoroughness of the discussion, the layout, the details, the use of contrasting yarns to show the selvages, the cast-ons, the bind-offs, stitch tricks, holding both colors together for two-color knitting, sweater construction details and new stitch patterns will help lift your knitting to new heights.
